

Hello Vaughn Community,

As some of you may know, I have been asking students and families to collect pop can tabs and bring them to the school for quite a few years now. All of the tabs collected are donated to the Ronald McDonald House. The Ronald McDonald House provides a place for a family to stay when they have a sick child who needs constant medical supervision. If you go to the following website, <http://www.rmhc.org/ronald-mcdonald-house> , you can learn more about the Ronald McDonald House, what they do to help families, and how pop tabs benefit the program..

I also plan on incorporating the collection of the pop tabs into my classroom instruction. Students will count and weigh the pop tabs to determine the amount collected for the rest of the school year. We will also use measurement activities to determine the total length of tabs collected.

There are pictures, information, and a thank you letter from previous donations posted on the Vaughn School website.. A HUGE THANK YOU in advance for participating in this program.

Sincerely,

Thad Wollan
